

Make working on challenging fabrics a breeze with the Brother Airflow 3000 overlocker.

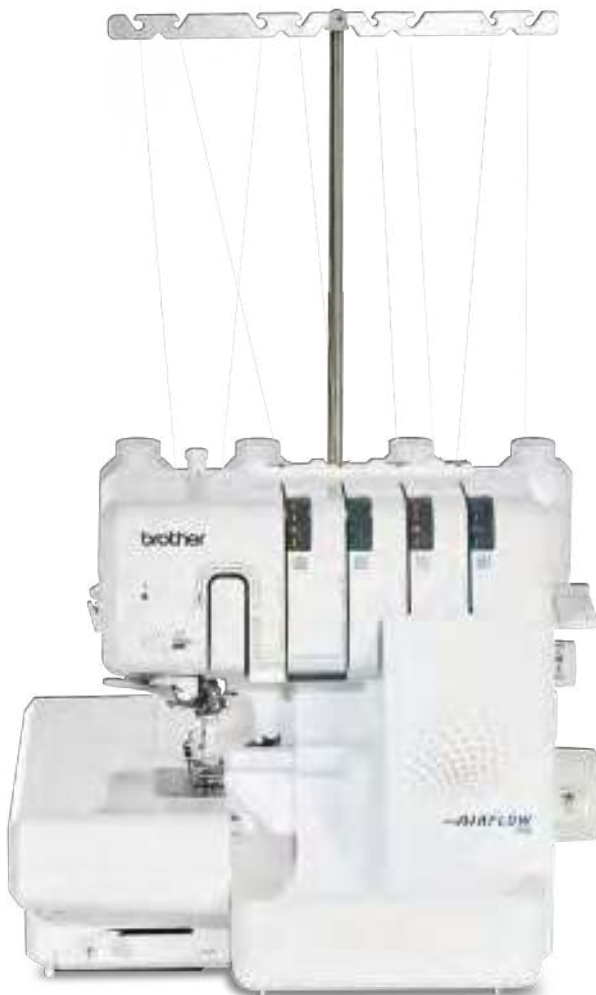

Introducing our fastest, easiest, electronic air threader. Simply insert your thread into the threading hole and 'whoosh' our air system guides it through the loopers for you.

We've built the Airflow 3000 for speed. By pairing air power with an advanced needle threader, threading an overlocker has never been so quick or easy.

Keep the flow going with quick release levers for rolled hemming and deactivating the cutting knife.

With the error LED indicator, you'll never have to take time out to work out what's wrong. If something's not right, the machine won't start, so you can stop and sort it straight away.

With stitch speeds of 1,300spm the Airflow 3000 is the perfect partner for flying through orders or increasing your creative output.

Electronic air threading technology // Advanced needle threader // 2, 3 or 4 thread stitching // Differential feed // Quick change levers // 5mm - 7.5mm stitch width // Fast sewing speeds of 1,300spm // Error LED light // Loads of included accessories!

Look sharp, the Airflow 3000 will blow anything you've made before out of the water.

Achieve the finest of finishes on knits, stretchy materials, sheer fabrics and even Lycra.

Differential feed – with a differential feed ratio of 0.7mm to 2mm you'll get an outstanding stitch quality, no matter what fabric you're working on.

Instant rolled hem – quick-change levers will give you an instant rolled hem. Perfect for light and sheer fabrics. Choose between a smooth rolled or wavy edge rolled hem.

Outstanding finishes – add the professional touch with flatlock, overlock and rolled hem stitches.

Brightly lit – white LED lights that brighten the workspace, and any fabric you're working on.

Stitch quality – stitch at speeds of up to 1,300spm! Use the dials to adjust stitch length and width as needed.

Stitch width – keep it flexible with stitch widths of 5mm – 7.5mm.

Avoid annoying clogs – smooth air technology keeps everything moving, so there's no lint or fluff build up.

Extra value – the Airflow 3000 comes with trim trap, blind stitch foot, gathering foot and piping foot.

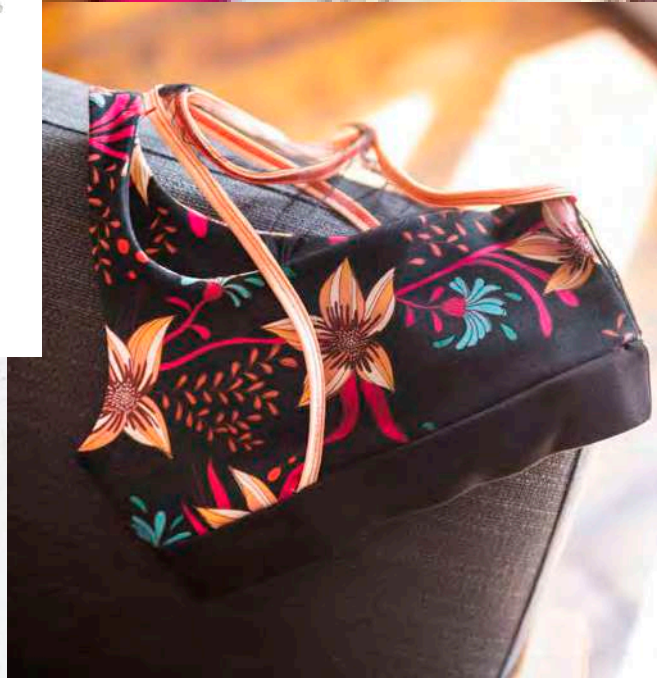

So much stitch choice – 4 thread overlock, 3 thread overlock narrow, 3 thread overlock wide, 2 thread overlock narrow, flat lock 2 thread, flat lock 3 thread, pin tuck, blind hem, rolled hem, narrow hem and lettuce edge.

Safety first – cover open? Raised presser foot? The machine won't start! This prevents damage to you, your work and your machine. As an extra precaution, the safety sensor deactivates the cutting knife immediately, keeping you safe and protecting the loopers.

Wide extension table not included
(separate purchase necessary)

Push yourself further with the Airflow 3000's optional accessories.

Purchase the Wide Table (SERGERWT3) and no project will be too big for you to handle.

For a truly unique finish, why not try the Brother Pearls Presser Foot (XB44360001/SA217). Add eye-catching details with ease.

For neat and fitted finishes, the Brother Taping foot (XB3632001/SA212) allows you to sew tapes and elastics at the same time as hemming.

Brother Support App

At Brother we're always 'At your side' and will be with you every step of your sewing journey. Our tutorial movies and a support app are only a click away, so download today.

To get your creativity flowing we've produced some 'how-to' movies to help and inspire you, find them on our [website](#).
