

Innov-is

Turn heads with the sleek and stylish Innov-is F560

FEATURES INCLUDE:
3.7" COLOUR TOUCHSCREEN
241 SEWING STITCHES
10 BUTTONHOLES
5 LETTERING FONTS

# Impov-is 16 to 16

## Designed for the designers, let us introduce the Innov-is F560.

Whether you've been sewing for a while, or are just starting out, the advanced needle threader, drop-in bobbin and easy to thread system make this machine so simple to use.

See your style come alive on the colour LCD screen and make your unique mark with My Custom Stitch<sup>TM</sup>.

Create anywhere, any how, any way. The Innov-is F560's hard case makes safe travel and storage a cinch.

3.7" (9.4cm) colour touchscreen

241 sewing stitches, including 10 buttonholes, plus 5 lettering fonts (capitals and lowercase)

7.4" (190 mm) workspace

Advanced needle threader and auto thread cutter

Multi-directional sewing, sideways feeding and SFDS

**Automatic upper thread tension** 

My Custom Stitch™

**USB** port

Hard case

Colour LCD touchscreen

Advanced needle threader

241 built-in sewing and decorative stitches

### **Sew sophistication**

...on the Innov-is F560 with 241 utility and decorative stitches, including 10 one-step buttonholes. Words come easily when you have 5 lettering fonts at your fingertips.

Expand your portfolio even further with My Custom Stitch™. Design your own decorative stitches directly into your machine using the colour LCD touchscreen. Save them to use across a whole range of makes. With four-way side feeding decorative stitches are precise and crisp.

Professional finishes come as standard with Brother's innovative Square Feed Drive System (SFDS), giving you superior quality, strong stitching on any fabric. Adjustable foot pressure helps you sew pucker-free seams on even the most stretchy of fabrics. Now there's no need to avoid 'difficult' materials.

With a central panel including slide speed control, lockstitch, needle up/down button, thread cutter and start/stop button, precision control comes as standard.

Central controls

One-step buttonholes

Free arm sewing

# We've built the Innov-is F560 to be a strong and reliable quilting partner.

With a superior stitch quality and auto thread tension you won't need to worry about the durability or look of your stitches.

Keep your hands on your quilt and your mind on the task with the included knee lift. With more control, the precision needed for perfect quilts is in your hands.

Easy-to-access drop feed gives you ultimate freehand stitching control.

The Quilting Kit\* (QKF3), which comes with a wide table and a selection of quilting feet, makes large projects a breeze. It includes a quarter inch piecing foot and quilting guide (plus more!), which will help you get the straightest of stitches and sharpest of corners.

#### **Brother Support App**

At Brother we're always 'At your side' and will be with you every step of your sewing journey. Our tuitional movies and a support app are only a click away, so download today.

To get your creativity flowing we've produced some 'how-to' movies to help and inspire you, find them on our <u>website</u>.

## Optional extras\*

Want more hands-free sewing? Why not try the Brother MFFC2 Multi-Function Foot Control? Foot control for Start/Stop. Programme the heel kick and choose a function from thread cutter, sewing one stitch, reverse stitch or needle up/down.

Brother's walking foot (F085) means you'll tackle multi-layer quilts with ease, no matter what combinations of materials you use to make them.
